# #TRENDINGNOW

In some cases the fashion trends reflect the mood of the public. In terms of popular clothes and accessories and in other cases fashion trends impose the changes in the public taste. Fashion trends in their essence predetermine their transitory character. But when this or that particular fashion trend is in full swing no one is likely to predict that its end is soon to come. The abundance of designer houses is a clear manifestation of the demand that the society provides for exclusive continually changing clothes styles.
