TRENDIEST
STYLE

Life isn't all floras and gowns, even for the Princess of Wales.

1003

The right image shows a woman in a traditional Indian sari, similar to the one in the left image, but she is sitting. She is holding a small bowl of flowers. The background is a temple with ornate pillars and a large archway. The floor is covered with pink flower petals. The image is framed by a decorative border. Above the image is the text 'TRENDIEST STYLE' and below it is the text 'Life isn't all floras and gowns, even for the Princess of Wales.' At the bottom of the image is the number '1003'.
