Shawl

"Sustainable" is not just a word, it's a mindset. It's about being conscious of the resources we use, the people we employ, and the environment we live in. It's about making choices that are good for the planet and good for the people who make our lives better. It's about being responsible and being kind. It's about being a part of the solution, not the problem. It's about being a part of the future, not the past. It's about being a part of the world we want to live in, not the world we have. It's about being a part of the world we can be proud of. It's about being a part of the world we can love. It's about being a part of the world we can make a better place for everyone. It's about being a part of the world we can all call home.

Rangoon

She's got the LOOK

"Sometimes" "When the world is weary and on the verge of retiring, it when she comes out to the sands. The magnificent colors of her dresses drive away every bit of languor from weary hearts. They come as servants, and leave as richer than ever before with this blessed experience. The colors she wears in that faraway desert land, bring a new life into the bleak landscape."
